## TEN PRINCIPLES OF ARYA SAMAJ

- God is the ultimate source of all true knowledge and of the objects that are known by its means.
- God is existence, intelligence and the Sat-Chit-Anand. He is formless, almighty, just, merciful, unborn, infinite, unchangeable, beginningless, incomparable, the support and Lord of all, all pervading, omniscient, imperishable, immortal, exempt from fear, eternal, holy and the Maker of the Universe. To Him alone worship is due.
- The Vedas are books of true knowledge. It is the paramount duty of all Aryans to read them and to teach them, to hear them, to read and to read them to others.
- We would always be ready to accept truth and renounce untruth.
- All actions should be done in conformity with Dharma after due consideration of right and wrong.
- The primary aim of the Arya Samaj is to do good to all mankind i.e. to promote their physical, spiritual and social welfare.
- We should treat all people with affection and justice and with due regard to their merits.
- We should aim at dispelling ignorance and promoting knowledge.
- No one should remain satisfied with his own welfare. He should regard his welfare as a part and parcel of the welfare of all.
- In matters which affect the well-being of all, a person should give a subordinate place to his likings. In matters which affect him alone, he is to enjoy freedom of action.

# INTRODUCTION

A devoted personality, Dr. Banarsi Dass Soni, Ex. Capt. I. M.S., with a missionary zeal for medical education and patient care, conceived the noble idea of providing the much-needed medical care to the general public. This bloomed in the form of Arya Medical School in 1934. It was started in a rented building in Civil Lines, Ludhiana. In the beginning, admission was limited to only 20 students.

In 1936, management of the school was handed over to the Arya Samaj, Saban Bazar, Ludhiana, under the aegis of Arya Pratinidhi Sabha, Punjab. A separate Managing Body nominated by the Managing Committee of Arya High School, Ludhiana managed the Medical School. It was shifted to its own building (presently, Dayanand Medical College Hospital, College Campus, Ludhiana) in 1937.

The medical school was recognized for LSMF (Licentiate of State Medical Faculty) in 1938 and also for the running hospital attached to it. The following year, the Managing Body decided that the Ludhiana Medical School should, in future, be called "Arya Medical School" and the hospital attached to it "Dayanand Hospital".

In 1964, Arya Medical School flowered into a full-fledged MBBS College, which came to be known as Dayanand Medical College. The management of this college was taken over by a galaxy of prominent people of Ludhiana, who formed an organization known as the "Managing Society of Dayanand Medical College & Hospital, Ludhiana", and Late Shri H.R. Dhanda, a prominent industrialist of the town, became its Founder-President.

The college is recognized for the MBBS Course by the Medical Council of India and is affiliated to the Baba Farid University of Health Sciences, Faridkot. It admits 70 students every year to the MBBS Course.

The college is also affiliated to the Baba Farid University of Health Sciences, Faridkot for the postgraduate courses in Anatomy, Physiology, Pathology, Microbiology, Pharmacology, Ophthalmology, Otolaryngology, Community Medicine (S.P.M.), Medicine, Surgery, Obstetrics & Gynecology, Pediatrics, Dermatology & STD, Orthopedics, Anesthesiology, Radio-diagnosis and Psychiatry. All these courses have been recognized by the Medical Council of India except MD (Microbiology) which is a permitted course and for the recognition of which, the process has been set in motion.

The institution also imparts training for DM Courses in Cardiology, Gastroenterology and Neurology as well as for M.Ch. Courses in Plastic Surgery. The process of seeking permission to start MCh. (Urology) has been set in motion.

DMCH College of Nursing is one of the most modern and well-equipped nursing colleges of Punjab, with excellent on-job training. It imparts training for General Nursing and Midwifery (GNM) and B.Sc. (Nursing). It plans to introduce a post basic diploma in cardiothoracic nursing and critical care nursing.

The super-specialties of Cardiology, Endocrinology, Gastroenterology, Nephrology, Neurology, Immunology, Medical Oncology, G.E. Surgery, Kidney Transplant, Neurosurgery, Surgical Oncology, Pediatric Surgery, Cardiothoracic and vascular surgery, Plastic Surgery including micro-vascular surgery, Urology and Transfusion Medicine are providing the most modern and advanced care to the patients. The prominent state of the art investigative facilities available in DMCH include 1.5 Tesla MRI,

Whole Body Spiral CT Scan, Ultrasonography, Echocardiography, DEXA, Mammography, Fiberoptic Endoscopes including upper as well as lower GI Scopes, Bronchoscopes, Nasopharyngolaryngoscope, Colposcope, Hysteroscope and Peritoneoscope, Video EEG, EMG, Somatosensory Evoked Response Testing apart from Biochemical Autoanalyzers, Blood Gas Analyzer, Auto Cell Counter, PCR etc.

DMCH is the only institution in North India which has Intensive Care Units (ICUs) in most of the critical care areas. A new block has been set up which houses Medical ICU, Pulmonary ICU, Stroke ICU, Pediatric ICU, Surgery ICU and Neurosurgery ICU. Other important ICUs are Intensive Cardiac Care Unit (ICCU) in DMCH and Cath ICU and ICCU in Hero DMC Heart Institute. Special care facilities also exist for burns, operated patients, neonates, thalassaemia and cancer patients.

Hero DMC Heart Institute (HDHI), with 120 beds, became operative in April, 2001 and has the state-of-the-art investigative and treatment facilities. The Institute has already performed more than 20,000 catheter laboratory procedures and 3,500 O.T. procedures. The hospital has a spect CT scan for nuclear medicine and cardiology. It is one of the best cardiac centres in the country.

The institution has well-developed urban and rural health delivery systems, with residential facilities for training of students and interns under the department of Community Medicine. Models for health care delivery and Community Oriented Learning have been developed in these areas in addition to research on community health problems.

This institution has come up by the dint of hard work and sincere efforts of the faculty, the management, staff and administrators as also the cooperation of the students. The citizens of Ludhiana and other places have always been kind in extending their helping hand in building up this institution.
