## Diagnostic Cardiology Summit at HDHI

Hero DMCH Heart Institute, a unit of Dayanand Medical College and Hospital, today organised its first diagnostic cardiology summit at Maharaja Farms.

President of the DMCH Managing Society Sunil Kant Munjal inaugurated the summit.

The summit began with a lecture on “Nuclear medicine imaging-current clinical utility and future

trends” by Dr Ravi Kashyap, head of nuclear medicine, INAMS, New Delhi. He emphasized upon the use of nuclear medicine in management of various diseases.

Dr Rajesh Vijayvargia, associate professor of cardiology, PGIMER, Chandigarh, delivered a lecture on “Clinical relevance of some lab tests in present-day practice”

followed by a lecture on “Evaluation Protocol in valvular heart disease” by Dr Balram Bhargava, professor of cardiology, AIIMS, New Delhi. The doctor emphasized on newer lab tests that help in better management of critical patients.

In his lecture on “Diagnostic pathway for evaluation of peripheral vascular disease”, Dr Sanjeev Sharma said many new modes of investigation were available now and nuclear medicine was one of them.

The evening session of the summit will have lectures on “Practical illustrations and lessons

in ECG” by Dr Vijay Trehan, professor of cardiology, GB Pant Hospital, Delhi, and on ‘Investigative protocol for evaluation of syncope’ by Dr S.S. Kothari. There would be a special lecture on “New Frontiers in Cardiology and Cardiac Surgery” by renowned cardiac surgeon from Apollo Hospital and chairman, Medicity Hospital, Gurgaon, Dr Naresh Trehan.
