ELECTIVE MODULE: DERMATO-SURGERY

This module is designed to show the students various dermato-surgical procedures. This will help them in better understanding of the subject; make them aware of the various procedures and surgeries done in dermatology and patient selection for these procedures. This will also help to develop a keen interest in the subject.

Students will learn to observe and assist various dermato-surgical procedures. They will learn the importance of taking an informed consent and how to counsel the patient and allay patient anxiety. Students will also learn the importance of aseptic measures before a procedure. They will learn the indications for a particular procedure.
